AAAH!

Eportfolio? But……

- How is it signed & dated?
- Is it genuine & authentic?
- Is it candidates own work?
- What if they don’t have a computer?
- How is it stored?
- Who can access it?
- What about dyslexic learners?

OneFile

Benefits

- Learners consistently completing qualifications well within agreed timeframes
- All Apprentices have completed in less than 12 months
- The assessors are able to support significantly more learners at any one time
- The system shows each learner's progress – a key motivator for all learners
- Work is all completed electronically so is stored securely
- Fewer assessor visits to candidates in the workplace means the candidates are removed from direct patient care far less frequently

- Accurate tracking and evidence of when the work was completed
- Tracking of candidates activity and progress makes reporting to managers & Partner Colleges simpler and more accurate
- Standards Verifier can access the portfolios remotely so fewer visits to the Centre are needed
- Portfolios are accessed remotely so assessment and verification tasks can be carried out wherever there is internet access
- Confidential records are now all stored on the e-portfolio removing the need for paper filing systems and the potential for lost / misfiled documents

Downfalls?

Less Contact with Candidates however we have put systems in place:-

Mobile phone – Texts, Calls, Social Media

Messages on OneFile

Regular monthly Reviews

Tutorials

Monthly Mandatory Study sessions

Potential Challenges

- Dyslexic Learners – Colour changes on page and font adjustments to meet individual needs
- No computer access – We have tablets we loan for the duration of the qualification
- Knowledge – Resources uploaded to OneFile to support learning
- Managers can have observer account to track progress
