Government Transformation Strategy 2017 to 2020

- transforming whole citizen-facing services
- department transformation to deliver policy objectives in a flexible way
- and internal government transformation to collaborate better and deliver change more effectively.

GOV.UK

Better meetings…better decisions, better governance

- Poor meeting culture
- Not efficient or effective
- Poor outcomes.

Good governance

- More important than ever
- Has never been more complex
- Is expected

Using technology to improve governance

- Access data securely anytime, anywhere
- Better informed decisions
- Manage risk

Better decision making

- Transparency
- Reduces group thought
- Increased accountability around all decisions

Better overview of risks

- Monitor risks more easily
- Visual heat-map allows for at a glance understanding of risks
- Greater accountability of risk responsibilities

Better collaboration

- Collaboration greatly increased when using digital tool
- Make and share annotations
- Everyone has access to the most up-to-date information

Board portals in practice

"a board portal has driven improvements in reducing meeting preparation time and costs"*Luton and Dunstable Hospital Trust,* Victoria Parsons

Julie Robinson, Watford Community Housing commented, "Our main objective was to increase security and efficiency, which we have definitely done."
"Using the board portal app on iPads has allowed users to make notes and thoroughly discuss agenda items. It has enabled us to be more productive and save time for board members, not just the administrators."
